Site Assessor will discuss your options for generating a native vegetation credit with you, assess your property, draft a security agreement and management plan with you, and liaise with the Department of Environment, Land, Water and Planning to secure the on-title agreement on the native vegetation credit register.

Broker will assist to facilitate a search to locate suitable native vegetation credits, facilitate negotiations, draft a credit agreement and process with the native vegetation credit register. A Credit Broker can conduct "Fixed-price" trades which is a mechanism to facilitate quick trades for Habitat Units and Biodiversity Equivalent Units where the offset has been determined and purchasing is streamlined.
