

First Name

Olexandra

Last Name

Vazhnenko

What organisation are you from?

Individual

What do you think are the best value actions listed in the statement that are likely to help improve future air quality?**How would you build on or vary these actions?****Do you have any suggestions for further actions?****Are there any air quality actions you believe should be avoided? Why?**

West Gate Tunnel will release thousands of tracks on less than 1km fully residential Millers rd, just metres from primary school. Brooklyn is the most polluted suburb of Melbourne- all parties promised to improve air quality but instead have decided to destroy whole Inner West with this awful project. Brooklyn is very nice, baby- boom area - West Gate Tunnel makes it constant "gas chamber" at home as well at school . Please stop it! We have right to breath clean air

Are there particular areas of air quality (either pollution sources or geographic regions) you think the government should target for improvement? Why?**Are you able to provide any data or information that will help government assess the feasibility and cost-effectiveness of air quality management actions?**

Please Check Don't destroy Miller's Rd FB page

Do you have other suggestions on how to secure a clean air future?
