

First Name

Glenn

Last Name

Boyd

What organisation are you from?

-

What do you think are the best value actions listed in the statement that are likely to help improve future air quality?

-

How would you build on or vary these actions?

-

Do you have any suggestions for further actions?

i. Ensure the EPA has the power and capacity to enforce laws and recommendationsii. Treat industrial logging burns air pollution like other forms of industrial pollution so as to stop this harmful pollutioniii. Industrial logging burns pollution is potentially harmful on many fronts to workers, local residents and other Victorian citizens as well as to our environment including the other threatened animals of the forestiv. Don't give approve major new polluting projects and agreements, including new burning facilities and Regional Forest Agreementsv. Increase monitoring so that pollution data is immediately accessible to community.. vi. Invest in the protective values of our established native forests to clean our air

Are there any air quality actions you believe should be avoided? Why?

-

Are there particular areas of air quality (either pollution sources or geographic regions) you think the government should target for improvement? Why?

Industrial logging burns

Are you able to provide any data or information that will help government assess the feasibility and cost-effectiveness of air quality management actions?

Logging Victorian Forests is Bad Value<https://theconversation.com/ashes-to-ashes-logging-and-fires-have-left-victorias-magnificent-forests-in-tatters-50897>Victoria's logged landscapes are at increased risk of bushfire<https://theconversation.com/victorias-logged-landscapes-are-at-increased-risk-of-bushfire-30611>

Do you have other suggestions on how to secure a clean air future?
