

Victorian Landcare Grants

The annual Victorian Landcare Grants support Landcare and environmental volunteer groups and networks to deliver on-ground works, education and capacity building projects to protect and restore the environment.

2022 Outcomes

206 Projects delivered

Outcomes included protecting threatened species and habitat, revegetating and controlling weeds, reducing rabbit numbers and engagement and education to connect communities with nature

6,387 people participated in 414 community events

e.g. workshops, field days, demonstrations delivered as part of grants projects

Value for money 2022

Victorian Landcare Grants leveraged **\$2.5 million** through in-kind volunteer and staff hours, project support and financial co-contributions, on top of the **\$4.1 million** invested by the Victorian government

Biodiversity 2037 Plan

Over 23,000 Ha of land improved (13,000+ MCGs):

Revegetation
872 Ha

Weed Control
2,977 Ha

Herbivore Control
19,277 Ha

Habitat Protection
228 Ha protected by 3,559 Kms of fencing
